Your OEP Plan Review Kit

Four practical worksheets. One organized review.

Medicare Advantage Open Enrollment resources

For people reviewing Medicare Advantage coverage. Use these worksheets to organize questions and comparisons; they do not determine eligibility or enroll you in a plan.

MEDICAREFAQ / OEP 2027

Plan Review Checklist

Medicare Advantage Open Enrollment | January 1 - March 31, 2027

REVIEW DRAFT | Printable worksheet - not an enrollment application

For current Medicare Advantage members reviewing coverage. Work through each step; mark unverified items "Not checked." Keep this completed sheet private. Do not write your Medicare number here.

1 Identify your coverage and goals

Current plan name:

Contract / plan ID (if known): Plan year:

Review date: Reason for reviewing coverage:

Desired path: keep plan / another MA plan / Original Medicare

2 Confirm before comparing

I confirmed an enrollment opportunity for my proposed change.

☐ Yes ☐ No ☐ Not checked Notes:

Verified with (source or contact) and date:

I gathered plan documents and my coverage questions.

☐ Yes ☐ No ☐ Not checked Notes:

I checked my doctors and hospitals for the exact plan.

☐ Yes ☐ No ☐ Not checked Notes:

If answers conflict, leave the check unresolved and record the next action on page 2. You do not have to change plans just because you review them.

Finish Your Plan Review

Continue from page 1 | Keep requested and confirmed dates separate

REVIEW DRAFT | Printable worksheet - not an enrollment application

3 Check coverage and costs

I reviewed medications, coverage rules, and pharmacies.

☐ Yes ☐ No ☐ Not checked Notes: _____

I estimated premiums and other expected out-of-pocket costs.

☐ Yes ☐ No ☐ Not checked Notes: _____

I checked benefits, limits, referrals, and prior authorizations.

☐ Yes ☐ No ☐ Not checked Notes: _____

If leaving MA, I checked drug coverage and Medigap options.

☐ Yes ☐ No ☐ Not checked Notes: _____

For the last item, note "not applicable" if staying in MA. MA OEP does not itself guarantee acceptance into Medigap; check your rights before changing.

4 Resolve questions and confirm the change

Unresolved issue / person responsible / next action:

_____

Requested start date: _____ Confirmed start date: _____

I saved enrollment confirmation and verified the start date.

☐ Yes ☐ No ☐ Not checked Notes: _____

After a switch, I checked cards, pharmacy, and appointments.

☐ Yes ☐ No ☐ Not checked Notes: _____

MedicareFAQ / Elite Insurance Partners - not a government agency

Compare Your Plan Options

Use the same three plan columns on all pages. This is not an application or recommendation.

Start with the exact plan, year, county, and quote date. Do not enter your Medicare number. For coverage checks, write Verified, Not checked, or Conflicting; include your source and date. Unknown does not mean $0.

Review item	Current plan A	Alternative B	Alternative C
Exact plan name / contract and plan ID / plan type (e.g., HMO or PPO)			
Plan year / county and ZIP / quote date			
Doctors and hospitals: exact location and network status / source and date			
Drugs: coverage, rules, issues / source and date			
Pharmacy location / network status / source and date			
Referrals / authorizations / treatment: source and date			
Extra benefits: eligibility, limits, and rules / source and date			

Confirm information for the exact plan, not just the insurer. Record conflicting answers on page 3.
Use the provider and prescription worksheets for detailed checks when available.

MedicareFAQ / Elite Insurance Partners - not a government agency. Keep completed sheets private.

Compare Expected Costs

Plan names: A _____ B _____ C _____

Comparison dates: _____ Months: _____ Use the same services and period for all plans.
Add only non-overlapping estimates. Check whether a quote or tool total already includes premiums.

Review item	Current plan A	Alternative B	Alternative C
Monthly plan premium / drug premium included? Yes, No, or Unknown			
A. Plan premium for this period (monthly premium x months)			
B. Expected medical cost sharing (deductibles, copays, coinsurance)			
C. Expected drug cost sharing (no premiums; use drug worksheet)			
D. Expected noncovered expenses			
Estimated subtotal: A + B + C + D (unknown items stay unknown)			
Part B premium and any other premiums or surcharges, separately			
Source / date / assumptions / premiums already included			

Do not add a deductible twice if it is already in a cost estimate. The subtotal is not your entire Medicare budget.
Record Part B and other premiums separately; account for each once when reviewing your full budget.

MedicareFAQ / Elite Insurance Partners - not a government agency. Keep completed sheets private.

Check Limits and Tradeoffs

Plan names: A _____ B _____ C _____

Limits below describe financial exposure; do not add them to expected costs. Verify plan-year amounts and rules.

Review item	Current plan A	Alternative B	Alternative C
Medical limits: in-network / combined, if applicable			
Drug out-of-pocket threshold / year (separate from medical)			
Which costs count toward each limit? Source / verification date			
Priority fit: must-have needs met? Remaining tradeoffs?			
Unresolved questions / next action / person responsible / follow-up date			
Decision: keep current / consider / pending. Reason for decision			

A lower estimate alone does not establish a better fit. Resolve provider, drug, and eligibility questions first.

Fictional 12-month example (noncovered costs $0): A: $20 x 12 + $900 + $360 = $1,500;
B: $35 x 12 + $700 + $240 = $1,360; C: $0 x 12 + $1,400 + $600 = $2,000. Part B excluded.
B has the lowest subtotal but hospital access is unresolved, so the decision stays pending. These are not quotes.

Provider Verification Sheet

One provider or facility, one location, one exact plan per copy.

Ask about the exact plan, year, and location - not just the insurer. Accepting Original Medicare does not establish a Medicare Advantage network match.

Plan name / contract and plan ID:

Plan type: Plan year:

Provider name / specialty or hospital / facility:

Exact street address / location:

Directory URL or document / date checked:

Directory result: Listed / Not listed / Unclear (circle one)

PROVIDER OFFICE

Contact date / channel:

Person / role or reference number:

In network for this exact plan?

☐ Yes ☐ No ☐ Unknown

Accepting new patients?

☐ Yes ☐ No ☐ Unknown

Notes / confirmation details:

INSURANCE PLAN

Contact date / channel:

Person / role or reference number:

In network for this exact plan?

☐ Yes ☐ No ☐ Unknown

Accepting new patients?

☐ Yes ☐ No ☐ Unknown

Notes / confirmation details:

Resolve Conflicting Answers

One provider or facility, one location, one exact plan per copy.

Provider / location / exact plan (same as page 1):

Referral or authorization requirements / source and date:

DISCREPANCY AND FOLLOW-UP LOG

What is inconsistent or still unknown?

Next action / person responsible:

Follow-up date:

Plan reference number:

Resolution / source / confirmation date:

Final status (circle): Verified / Not checked / Unresolved

Keep new-patient acceptance separate from network status. Ask the office directly about availability. If answers conflict, ask the plan to clarify the exact provider and location; retain its written response or reference number.

A confirmation records what you were told on that date. It is not a guarantee of future network participation, authorization, or payment. Keep Medicare numbers, diagnoses, and other sensitive patient details off this sheet.

Compare plan types Joining a plan Free SHIP counseling

Prescription Cost Workbook

Start with your current medication list. Keep completed pages private.

Copy the prescription details you use now; do not change medicines or doses for this worksheet. Ask your prescriber or pharmacist if a detail is unclear.

List reviewed on / comparison plan year:

MEDICATION 1

Name / brand or generic / form (tablet, inhaler, etc.):

Strength / dose and frequency:

Quantity per fill / days supplied / refill frequency:

MEDICATION 2

Name / brand or generic / form (tablet, inhaler, etc.):

Strength / dose and frequency:

Quantity per fill / days supplied / refill frequency:

MEDICATION 3

Name / brand or generic / form (tablet, inhaler, etc.):

Strength / dose and frequency:

Quantity per fill / days supplied / refill frequency:

Print extra copies for additional medicines. Use one copy of page 2 per medication and pharmacy comparison. Do not upload your completed workbook.

Check Coverage and Pharmacy

Repeat this page for each medication. Use the same supply for all options.

Medication / strength / quantity / days supplied:

Use Yes, No, or Unknown for each coverage rule. A drug listing or tier alone does not mean unrestricted access. Keep unknown separate from not covered.

Compare	Current A	Option B	Option C
Exact plan name / ID / year			
Pharmacy name / address / retail or mail order			
Pharmacy status: preferred / standard / out of network / unknown			
Drug covered? Yes / No / Unknown. Tier:			
Prior authorization? Step therapy? Quantity limit? (each: Yes / No / Unknown)			
Price for this supply / estimate source / date			
Other pharmacy checked / location / status / price			
Unresolved rule / prescriber or plan follow-up			

Record exact plan and pharmacy details. Use another copy if you need more room. Ask the plan and prescriber about restrictions before changing coverage.

Estimate and Transfer Costs

Use the same comparison period, medicines, and supply assumptions.

Plan names: A _____ B _____ C _____

Period: _____ Months remaining: _____ Year: _____

Use totals for all medicines over the same period; a single fill price may not represent annual costs. Check whether premiums and deductibles are included.

Compare	Current A	Option B	Option C
Drug cost estimate for period / source and date			
Premium included? Yes / No / Unknown. Premium amount:			
Deductible already included? Yes / No / Unknown			
Covered-drug cost sharing only: exclude premiums			
Noncovered drug expenses: keep separate			
Unresolved assumptions / next action / owner			
Covered-drug subtotal for comparison sheet (unknown if not separable)			

Transfer this subtotal to the comparison sheet's drug row. Record premiums and noncovered costs separately, once. Do not add a deductible already included.

Fictional example only: Medication X, invented 10 mg tablet, one daily, 30 per fill. Assume 12 fills, fixed costs of $30 / $20 / $50 for A / B / C, and no other drug charges: $360 / $240 / $600. These are not real prices.
